*According to the IHRA, **Holocaust denial** is discourse and propaganda that deny the historical reality and the extent of the extermination of the Jews by the Nazis and their accomplices during World War II, known as the Holocaust or the Shoah. Holocaust denial refers specifically to any attempt to claim that the Holocaust/Shoah did not take place.*

Holocaust distortion can include:

- 1. Intentional efforts to excuse or minimize the impact of the Holocaust or its principal elements, including collaborators and allies of Nazi Germany;*
- 2. Gross minimization of the number of the victims of the Holocaust in contradiction to reliable sources;*
- 3. Attempts to blame the Jews for causing their own genocide;*
- 4. Statements that cast the Holocaust as a positive historical event. Those statements are not Holocaust denial but are closely connected to it as a radical form of antisemitism. They may suggest that the Holocaust did not go far enough in accomplishing its goal of “the Final Solution of the Jewish Question”;*
- 5. Attempts to blur the responsibility for the establishment of concentration and death camps devised and operated by Nazi Germany by putting blame on other nations or ethnic groups.*
