Introduction text

The purpose of this survey is to better understand how antisemitism impacts on the life of Jews in the 13 European countries selected for this survey.

The survey is conducted by the Institute for Jewish Policy Research, Ipsos on behalf of the European Union Agency for Fundamental Rights.

We are interested in the views and experiences of all people who consider themselves Jewish, in any way (this could be based on religion, culture, upbringing, ethnicity, parentage or any other basis) and are aged 16 years or over.

The outcome of the survey will provide important evidence to EU and national policy makers, as well as organisations working within Jewish and wider civil society, to ensure that the rights of Jewish people are respected, protected and fulfilled across the EU.

Taking part in this survey is completely voluntary. All responses are completely confidential; it will not be possible for anyone to identify you in the survey results. You can find details on what data will be collected and on your rights by clicking the FAQ link at the bottom of the screen.

You can complete this survey on a desktop, laptop, tablet or smartphone.

This questionnaire will take up to 30 minutes to complete. We strongly recommend you do it in one go. However, if you wish to save your responses and return to the survey later, you will need to copy and save the link below somewhere on your device (e.g. Word, Notepad). We suggest you do this now in case you need to return to the questionnaire later without losing your responses.
